SIMPLIFIED text font: Sofia Sans Condensed, Regular

Recommended Pairing Website Header Font: Barlow Semi Condensed

Recommended web body text font: Inter

Use a linear vertical gradient (180°) that transitions from #1F3B57 (RGB 31, 59, 87) at the top to #0D1D2B (RGB 13, 29, 43) at the bottom.

This gradient can be applied to background areas where depth and contrast are desired, particularly behind the logo or hero elements.
